

LINE OILER CP

Brand: **Toku**

Product Code: **430101V0J**

LINE OILER CP

Toku Pneumatic Co Ltd ORIGINAL Made in Japan, compact line oiler (Lubricator) comes with 3/4" PT Male inlet and 3/4" PT Female outlet and mesh filter to catch any heavy debris before it goes into the tool!

This unit is very solid and durable, yet lightweight. It is made from very strong clear body so you can clearly see the amount of oil it holds, the filler cap is tethered to the body and the main centre part is solid steel. Also the oil delivery tube features a cinkered brass filter to ensure clean oil delivery through to the tool.

If you are looking for the right in-line lubricator for your rock drills or any other equipment look no further.

** See PDF in Technical Documents for operational information**
