

## ERGOVIT20 PISTOL GRIP SCREWDRIVER

**Brand: Ober**

**Product Code: 8302311**

### ERGOVIT20 PISTOL GRIP SCREWDRIVER

1,800rpm 220 Watts Industrial Pistol Grip Screwdriver.

This clutch type stops the power supply to the motor and stops tool rotation when a preset torque is reached.

The clutch enables high-precision tightening torques (+/-15% in flexible fastenings and +/- 10% in rigid fastenings), increases productivity and eliminates waiting times. The system prevents vibration of the operator's hand. The clutch range is adjusted using one of the variety of springs available.

Screwdrivers of the ACCU-TRK® family are supplied with a clutch spring enabling use of the maximum torque. If you require a lower adjustment range, request a spring with a lower rating.

#### Specifications

|                          |                 |
|--------------------------|-----------------|
| Diameter Outside (od)    | 38 (mm) Body    |
| Drive                    | 1/4" Female Hex |
| Free Speed               | 1800 (rpm)      |
| Hose Size I.D            | 8 (mm) min      |
| Inlet                    | 1/4" GAS        |
| Length                   | 225 (mm)        |
| Screw Tightening - Metal | M4 - M5         |
| Sound Pressure           | 78 dB(A)        |
