

## 1"DR ALUMINIUM SKT F488 & 296

Brand: **Paoli Pit Stop**

Product Code: **B.28.0051**

### 1"DR ALUMINIUM SKT F488 & 296

1" Female square drive Aluminium Wheel Nut Socket for the Ferrari 488 Challenge car.

Note this socket has the "fingers" to grip the special wheel nut socket, without magnets, make sure you choose the right socket.

ALSO instead of using the pin and internal circlip to hold socket to wheel gun anvil (drive shaft), you can use our part# RR10008CG, for a neater, easier and safer fixing method.
