

NORGREN 3/4" FILTER/REGULATOR w/o gauge

Brand: **Norgren**

Product Code: **B74FR34**

NORGREN 3/4" FILTER/REGULATOR w/o gauge

Norgren 3/4" BSP Professional Filter & Pressure Regulator (FR) Assembly complete with Metal Bowl with liquid level indicator and Automatic drain!

This is a top line product as it comes with metal bowl assemblies on the Filter/Regulator unit, making them far more durable than polymer bowls that have a tendency to crack.

Unit has a massive 212 cfm of flow.

We offer these industrial units at very competitive prices making it easier for you to ensure you get the right pressure and clean filtered air to your tools!

Other options such as safety lock-outs, higher flow units, etc are available contact us for assistance.

Maximum Inlet Pressure 17 Bar

* NOTE: this Part number is without the pressure gauge (image is for illustration purposes only), if you need the complete assembly ready to use see part# B74FR34-A.
