

NORGREN 3/4" FRL KIT+ BRACKET-AUTO DRAIN

Brand: **Norgren**

Product Code: **B74FRL34WB-A**

NORGREN 3/4" FRL KIT+ BRACKET-AUTO DRAIN

Norgren 3/4" BSP Professional Filter & Pressure Regulator (FR) Assembly and Micro Fog Lubricator complete with Metal Bowl with liquid level indicator, pressure gauge, automatic drain (on FR unit) and Quickclasp Plus wall mounting bracket!

This is a top line product as it comes with metal bowl assemblies on the Filter/Regulator/Lubricator unit, making them far more durable than polymer bowls that have a tendency to crack.

We offer these industrial units at very competitive prices making it easier for you to ensure you get the right pressure and clean filtered air to your tools!

Other options such as safety lock-outs, higher flow units, etc are available contact us for assistance.

Maximum Inlet Pressure 17 Bar
Unit has a flow rate of 148cfm (FR unit flows 212 cfm however the Lubricator flows 148 cfm making the complete unit flow 148 cfm)

Specifications

Bowl	Metal
Inlet	3/4" Female BSP
Max. Supply Pressure	17 Bar
Outlet	3/4" Female BSP
