

PAOLI 1" PITSTOP IMPACT WRENCH LH V8SC

Brand: **Paoli Pit Stop**

Product Code: **DP192**

PAOLI 1" PITSTOP IMPACT WRENCH LH V8SC

DP192 (Left-Handed) 1" Drive Paoli Pit Stop Wheel Gun range is developed specifically by Air & Allied Sales (Pacific) and Dino Paoli Pit Stop with collaboration with Red Bull Racing Australia to meet the specific demands of our V8 Supercars series.

The unit has proven speed, torque and more importantly ultimate durability and reliability for our specific V8 Supercar wheel nut requirement. The unit has been in use for over 5 YEARS by Red Bull Racing Australia and has proven to give a massive reduction in maintenance costs compared to other products used, it also has more power and speed, all in a compact lightweight wheel gun.

Depending on your specific wheel nut size the wheel gun has an ultimate torque output of 3,800 Nm, a V8 Supercar wheel nut can be tightened to 890 Ft-Lbs within 0.3 seconds (as tested and proven by Red Bull Racing Australia), plus it has the power to quickly and easily remove the wheel nuts. Gun is a Fast tightening in right hand and Faster loosening in Left Hand.

The ergonomics of this gun makes operation for the user very easy and comfortable, trigger system make control of the wheel gun easy and accurate, plus Fast Reverse System is included as standard. You can also option the wheel gun with an even faster Quick change system if desired making your pit stops lighting fast!

We have delivered the right package for our valued customers in Pit Lane, this wheel gun "Ticks all the boxes"!
