8" ANGLE POLISHER

Product Code: **GP-0405**

8" ANGLE POLISHER

8" Angle Polisher comes with powerful motor, comfort polyurethane grip, safety throttle lever, speed regulator and durable gears.

This product features a silenced rear exhaust that can be piped away by using optional parts which are readily available. The Polyurethane grip also protects against the "chill effect" normally associated with air tools. Included is a soft grip side handle making use of this tool comfortable, plus the side handle can be placed on either side of the tool for left or right hand operation.

Comes with black backing pad and features M14 Male spindle to accept electrical accessories, further widening the capabilities of this tool.
