

3" POLISHER C/W PAD

Brand: **Gatx**

Product Code: **GP-0487SW**

3" POLISHER C/W PAD

3" Industrial angle head polisher comes with a quality velcro polyurethane backing pad. Tool features a PU handle grip to reduce the "Chill Factor" normally associated with air tools, and also features a safety throttle lever, rear exhaust and built-in speed regulator for precise control in every application.

The extended head design makes polishing in hard to reach and cumbersome areas a breeze! Head design incorporates a grease nipple for easy maintenance of the head gears - further enhancing the durability of this tool.

The rear swivel exhaust allows the operator to direct the exhaust air in any 360 degree rotation position. Also included is a swivel inlet to eliminate tangled air supply hose.

This is a professional tool at a competitive price.
