AIR JACK EXTENSION COLLAR CLAMP

Brand: **Krontec**

Product Code: **LL-20CC**

AIR JACK EXTENSION COLLAR CLAMP

This clamp is used on the Airjacks for the Porsche 992 GT3R as these jacks are further inside the car and to use the carlifters (Double-Up) stands and the skates and safety stands you need to have one clamp fitted to each of the 4 Krontec air jacks in the vehicle.

You could also use this adaptor clamp to assist in making the Krontec car lifters (elephant stands) fit your bespoke vehicle modification.

We would always recommend you email us at motorsport@air-allied.com.au with any specific requirement so we can work with you to provide the best solution.
