

PNEUMATIC CLIP FASTENER TOOL

Product Code: **PM65**

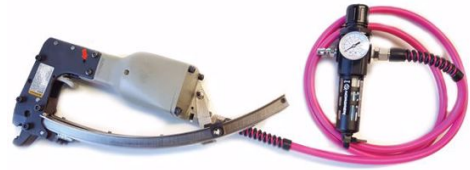

Image shows recommended setup with filter/regulator and 2 metre whip hose. This does not come standard with the tool, it is an option.

PNEUMATIC CLIP FASTENER TOOL

Pneumatic clip fastener tool for use with various clinching clips, used in the manufacture of just about anything you can think of!

This tool accepts the clips in strips in lengths of 40-50pcs.

Most general applications are: manufacture of spring mattresses, chairs, car, bus and truck seats, fencing, pet cages, traps, crab and Lobster pots, joining of wire products etc?

It is important to use a pressure regulator with this tool to avoid any over pressure supply air.
