1/4" HYDROPNEUMATIC RIVETER

This is an Industrial Hydropneumatic tool for blind rivets and structural high performance Farbolt rivets 3/16" - 1/4" and similar. It also features the ability to hold the rivet in the nose and automatically collect the sheared mandrel in the rear collection chamber.

The tool has a hanger "bar" to allow it to be used with tool suspension systems and is fitted with a swivel exhaust silencer, which greatly reduces operational sound levels. It also features a comfortable, shaped grip enhancing operator comfort.

Standard rivets \varnothing 4.8mm except for aluminium.

Standard rivets \varnothing 7.8mm only in aluminium.

The riveting tool is also suitable for X/S Trifar high performance rivets, by assembling the nozzle part no. 71345652.
