

COUPLER 45° ANGLED C/W BOTTLE & TROLLEY

Product Code: RFC-89-K-FL-45-TR

COUPLER 45° ANGLED C/W BOTTLE & TROLLEY

Krontec RFC-89-K-FL-45 Dual Fill Coupling complete with 25L bottle on 45 degree angle with all hoses and clamps ready to "Plug & Play" and INCLUDING specialised trolley!

PLEASE NOTE we can also offer you the Extended handles "XT" and Endurance Lock mechanism "LM" options to fit this bottle!

You may also be interested in Part# RFC-89-K-FL-0 for the coupler and straight bottle connection complete assembly ready to Plug & Play OR RFC-89-K Dual fill Head assembly only with 2 x 38mm Hose Tails, which is generally used on the end of Fuel Rigs for connection to car "nipple" for Pit Stops.

This product is the latest version of the Krontec RFC Refuelling system now with improved knowledge and an investment in state of the art technology, CFD and our expertise in integrated systems we have taken all of our customers feedback and have redesigned the system to incorporate the following improvements combining the best performance with reduced spillage, improving safety.

- * Reduced number of moving parts
- * Improved knowledge and capability in design and manufacture
- * Improved clearance and control to minimise spillage
- * Minimised number of joints
- * Lower friction on all moving parts due to a new high resistant and conductive layer
- * Increased flow rate by up to 10,7% due to streamlined design and CFD simulation
- * The weight of the fuel valve has been reduced by 30%
- * The 2nd Generation RFC-89 is entirely interchangeable with the original RFC-88, allowing existing customers to upgrade easily!

Krontec bottle trolley to fit all RFC-89 25 Litre refuelling bottles, and it also accepts ALL ATL (UK) refuelling bottles as well!
