# 200/300 Bar Din Fitting

## Product Code: RGPRSF200300DIN14

Application example - Note the perfect fit to the
Paoli Pit Stop regulator

## 200/300 Bar Din Fitting

This is a DIN fitting that suits both 200 Bar & 300 Bar cylinders with a 1/4" male BSP thread to fit PAOLI Pit Stop regulators and other regulators.

The fixing knob is rubber coated permitting a comfortable and sold grip when tightening or undoing.

This allows the regulator to fit directly into the dive cylinder or accumulator for a neat solid connection.
