

32MM PNEUMATIC SEALER FOR STEEL STRAP

Product Code: **STP32**

32MM PNEUMATIC SEALER FOR STEEL STRAP

32mm (1-1/4") Pneumatic (Air) operated sealer for steel strap with metal seal for flat and round surfaces.

This easy to use, modern design is ergonomic, light, compact and easy use. The pneumatic sealer is strong and reliable to use in the most demanding industrial applications. The sealer jaws can be turned to make the use of this tool more ergonomic and comfortable to use, also handy for small space applications.

Available standard in three sizes: 19mm(3/4?), 25mm(1?) and 32mm(1-1/4?), this particular model is for the 32mm(1-1/4?) size steel strap.
