

INDUSTRIAL ROCK DRILL

Brand: **Toku**

Product Code: **TJ20**

INDUSTRIAL ROCK DRILL

Industrial rock/sinker drill has a drilling capacity of 48mm - Made in Japan.

This tool is a very solid yet lightweight product and features a multi-position throttle for smooth start up in drilling. It is well balanced for efficient operation and each component is carefully heat treated to maximise durability. This product has forged a reputation as a proven performer with excellent durability and reliability in the construction, mining and resource industries.

When purchasing the unit from us the unit comes as standard with an industrial lubricator making it a very competitive and complete package.

We also have a silenced model (see TJ20S) and a silenced Anti-Vibration model available (see TJ20SV).

As with all of our industrial products, we offer technical and spare parts support to ensure your investment in our imported product(s) is a wise one.
