

20L RED TUFF JUG C/W RED RIPPER CAP

Product Code: **TJ20RRCR**

20L RED TUFF JUG C/W RED RIPPER CAP

This product code is a 20 Litre RED colour Tuff Jug comes with the ripper cap system, a self-regulating option which allows 20 litres of fuel to be dumped, no hassle, no spillage, in 45 seconds from a 20 litre container. Just lift the can (available in either 10 litre or 20 litre options), turn upside down and place firmly into the petrol tank. Pushing the Tuff Jug down opens the caps outlet and the internally fitted ventilation tube works in conjunction with the ripper cap to quickly and efficiently fill your petrol tank. The universal seal prevents spillage and Tuff Jug will automatically shut off once the tank is full. Lifting the Tuff Jug away from your petrol tank shuts off the ripper cap preventing any spillage of your precious fuel.

NOTE: this product does not have the top vent in the bottle because the ripper cap is self venting.

Features:

- Pours 5 gallons in thirty eight seconds
- Fluids stop flowing after reaching the end of the spout automatically
- Just pull up and the valve shuts off fluid flow
- No vent to open and close or to leak when pouring
- Stops over filling and prevents spilling
- Sturdy construction, made square to maximise storage areas

Includes: 20L fuel can & 1x red ripper cap
